As well as providing a full range of Disability Employment Services, Maxima can also assist with other employment requirements, such as:

NDIS Finding and Keeping a Job Employment Support

'Finding and Keeping a Job' supports are available to participants of any age who have 'Finding and Keeping a Job' on their NDIS Plan.

These supports are designed to build your capacity on the pathway to employment.

Then once in Employment, we provide ongoing support in the workplace. Maxima's flexible options offer you the chance to explore a range of work experiences and develop employability skills.

Delivering School Leaver Employment Supports (SLES)

School Leaver Employment Supports (SLES) is an early intervention approach for Year 12 school leavers. It's designed to develop a strategy to help build skills and confidence to support their transition from school to employment.

The NDIS can fund SLES for up to two years, depending on the participant's circumstances, and can be included in a participant's NDIS plan.

The aim of SLES is to build a participant's ability and confidence to work with a Disability Employment Service (DES), like Maxima.

Maxima delivers SLES to help young people prepare, look for and gain employment. We work with young people to provide meaningful, individualised capacity building activities so they can achieve their employment goals.
